

Donald Beautification Group Meeting Notes
August 19, 2019

Hello to All!

Attendees: Connie Lindsey-Bradley, Mike Scott, Gloria Nicholson, Krista Fogelson and daughters Sara and Naomi, Paula Gonzalez (Absent: Heidi Bell City Manager)

Tire-land Review: We chose the four highest ranked designs which all the kids voted on. The kids were participants in the park lunches, Summer Crafts and Storytime. The most popular was the bridge type climber, the circular ball of tires, the big circle of tires, a wall of tires which we are hesitant about because of safety, and a huge tire for the older kids. I have also requested 3-4 tires to make into planters on the fence. Connie, Heidi and I are going to have a meeting to check about the CIS requirements and a layout. At the same time, we will be working on the space layout. We are also going to put up a wall for the kids to experience their senses. At the Work Session on September 3, 2019 at 6:30pm at City Hall we will tie up any loose ends.

We also brought up the Santa Sing A-long. I reported that Mayor has a conflict for the usual Friday date so while the date was discussed, no decision was made. Mike said she would much rather have this event on Saturday night because of all the people that work. There were others in the group which agreed.

Paula and Krista walked around town and talked with our businesses and handed them their survey to fill out. They went to about 8 places and got 2 back so far. They said the response was really good. Most said they were very busy and needed a little more time.

Park Update: I let everyone know that the restroom is only about 7 weeks until arrival at Valley Pacific Construction. I am getting the approval of the piece of climbing equipment for insurance and then will get it ordered.

I let everyone know that the DBG is invited to the Work Session on September 3rd. We are having a guest speaker from the State of Oregon Forestry. September 3, 2019, 6:30pm at City Hall. You may leave after this or stay.

Our wonderful new City of Donald Signs which are so generously being donated by GK Machine will be updated with the Logo Circle being about 2.5 feet in diameter. They are going to cut out the letters and put behind the letters a powder coated orange which should really make it more readable. Connie will send us out a picture before starting the final signs.

Our next DBG Meeting will be September 16, 2019 at 6:30PM at City Hall.

Gerry, Recorder
