

February 22, 2021

Meeting Attendees: Heidi, Connie, Naomi, Sarah, Krista, Mayor Olmsted, and Gerry

Christmas Parade: It was discussed and noted that it was a success and fun for all!

Park Update: We discussed that the restroom is a success. I asked the question to verify if the baby changing table was installed! Sadly, we ran out of money before we could do this due to other code things that we needed to do.

Park Dedication Ceremony: We set a tentative date of August 28<sup>th</sup>, 2021. I will talk about the previous plans at the next meeting. We may do Hot Dogs in the Park instead of other plans since this event was so well received before the Pandemic.

Main Street Program: We are still trying to recruit a volunteer to get the Main Street Plan underway. Kristi said she will send out the recruitment again.

City of Donald Signs: Connie reported that the signs are done and ready for installation.

Fire Hydrant Project: Kristi, Sarah and Naomi are doing a great job getting this all organized. Kristi sent us a packet of information about their progress for us to peruse. This should be an exciting project for the artists of the community. Krista contacted the city of Port Orchard and this information is included in the packet of information she sent us.

Planters: We are now waiting until the weather gets nicer and trying to decide what type of plants we can use in the planters. Connie is checking another nursery in hopes of getting some ideas and donations.

Tree City: Heidi announced that we are now officially a tree city and will be getting some signs, etc. The tree board is also planning 2 classes that our citizens can attend as part of the event. One is "Trees 101" and the other is all about fruit trees. You may pre-submit pictures of trees to find out their identity for the Trees 101 class.

Corner of Butte and Main: I volunteered to draw up a plan for this corner for new bright and happy landscaping. I will also contact Tim Morrow's wife to see if she can help us with this. Once we come up with a preliminary plan, we will work on getting it formalized.

Next Meeting: March 22, 2021 at 6pm.
